

Algon 2H Capillary Matting

GROWFELT

product information

Based on our popular Lantor capillary matting range, Algon is an innovative reservoir and distribution system designed specifically for use in garden centres and retail display units, where both performance and appearance are vital.

Applications:	Indoor/outdoor easy clean capillary matting
Fibre composition:	Wool/Mixed Fibres Synthetic Binder Easy clean, spunbond polypropylene layer
Nominal weight:	312g/m² (+/- 5%),
Nominal thickness:	3.5mm
Roll widths:	1m, 1.2m, 1.25m
Roll length:	50m
Water Holding:	3 Litres/m² (Approximately)
Irrigation:	We recommend trickle hose or seep hose system - lines a maximum of 60cm apart. Also suitable for overhead water holding systems.
Additional Information:	Lasts 2-3 seasons, approximately; due to varying site conditions. Available also in cut pads to customer requirements for use in trays and benches.
Cleaning:	To minimise growth of algae, matting can be easily cleaned by brushing lightly with a dilute solution of commercial cleaning products such as Citrox (dilute citric acid) or Jeyes Fluid (follow manufacturer's instructions.
